Summary

Final-year Computer Science student passionate about full-stack web development, with hands-on experience building production-style MERN applications.

Education

B.Tech in Computer Science, Manipal Institute of Technology, 2026 (CGPA 8.9)

Technical Skills

JavaScript, TypeScript, React, Redux, Node.js, Express.js, MongoDB, REST API, HTML5, CSS3, Tailwind CSS, Git, Docker, Jest, Agile/Scrum

Projects

Campus Marketplace - Built a full-stack marketplace app using React on the frontend and a Node.js/Express backend with MongoDB for storage. Implemented REST APIs for listings, authentication with JWT, and used Redux for state management. Wrote unit tests with Jest and containerized the app with Docker for deployment.

Real-time Chat App - Developed a real-time chat application using Express.js and Socket.io, with a React frontend and MongoDB for message persistence. Used Git for version control and worked in an Agile sprint-based workflow with a small team.

Internships

Software Development Intern, PixelCraft Labs (Summer 2025)

Built and maintained REST APIs in Node.js/Express for an internal admin dashboard, integrated MongoDB queries, and collaborated with senior engineers via code reviews and daily stand-ups. Improved API response times by optimizing database queries.

Certifications

AWS Cloud Practitioner (in progress)
