Profile

Computer Science undergraduate with backend-focused development experience, currently expanding into frontend frameworks.

Education

B.Tech Computer Science, Manipal Institute of Technology, 2026

Technical Skills

Python, Django, Flask, SQL, PostgreSQL, Git, HTML, CSS, basic JavaScript, REST API, Linux

Projects

Library Management System - Built with Django and PostgreSQL, exposing REST APIs for book inventory and member management. Frontend built with basic HTML/CSS templates rendered by Django.

Expense Tracker API - A Flask-based REST API for tracking personal expenses, using SQLite for storage and JWT for authentication.

Work Experience

Backend Developer Intern, DataForge Analytics (Winter 2025)

Maintained Django REST APIs and wrote SQL queries for reporting dashboards. Occasionally assisted with small JavaScript fixes on the admin frontend.

Achievements

Runner-up, inter-college coding competition (2024)
