Objective

Mobile application developer seeking opportunities to build native Android experiences.

Education

B.Tech Computer Science, Manipal Institute of Technology, 2026

Skills

Java, Kotlin, Android Studio, Firebase, SQLite, XML, Git, OOP, Data Structures

Projects

Fitness Tracker Android App - Built a native Android app in Kotlin using Firebase for authentication and Firestore for data storage.

Notes App - A simple Android notes application using SQLite for local storage, built in Java.

Internship

Android Developer Intern, MobileFirst Technologies (Summer 2025)

Developed and maintained features for a native Android app in Kotlin, integrated Firebase push notifications, and fixed UI bugs reported by QA.

Certifications

Google Associate Android Developer (in progress)
