Summary

Data-focused student interested in analytics and machine learning.

Education

B.Sc. Statistics, Manipal Institute of Technology, 2026

Skills

Python, Pandas, NumPy, Scikit-learn, SQL, Excel, Power BI, Matplotlib, basic Git

Projects

Sales Prediction Model - Built a regression model using scikit-learn and pandas to predict monthly sales from historical data, visualized results with matplotlib.

Customer Segmentation Dashboard - Used Power BI and SQL to build a customer segmentation dashboard from a retail dataset.

Internship

Data Analyst Intern, InsightWorks (Summer 2025)

Cleaned and analyzed datasets using pandas, built dashboards in Power BI, and wrote SQL queries to support ad-hoc business requests.

Achievements

Published a short paper on data visualization techniques at a college symposium.
